SUMMARY

AI Engineer Lead with 7+ years shipping production AI platforms. I lead teams and client-facing solution design for agentic, RAG and LLM systems on Azure, AWS and Databricks, and stay hands-on, building with Claude Code CLI. Delivered €1.4M in annual cost avoidance through GenAI automation.

IMPACT

€1.4M	10 + 4	80%	90%
annual cost avoidance	microservices + frontends	faster deployments (CI/CD)	legal review time cut

CORE SKILLS

Leadership & Delivery	Team leadership (teams of 5–8+) · Solution & architecture design · Requirement elicitation · RFP analysis · Stakeholder management · Sprint planning · PR review · Mentoring · Scrum
GenAI / Agentic	Claude (Sonnet, Haiku) · AWS Bedrock · Azure OpenAI · Langchain · Langraph · ReAct · MCP · Claude Code CLI
RAG & Data	Azure AI Search · Databricks (Delta Lake, Unity Catalog) · Neo4j · ChromaDB · dbt · Azure AI Document Intelligence
Backend / Frontend	Python · FastAPI · React · Next.js · Module Federation · Microservices · Event-driven architecture
Cloud	Azure (Functions, Logic Apps, Event Grid, Container Apps) · AWS (Bedrock, SageMaker)
DevOps	Docker · GitHub Actions · GitLab · Azure DevOps
Domains	Energy & Utilities · Legal · Finance · Marketing · Open-Source Software

EXPERIENCE

Capgemini Technology Services — Insight & Data — Bangalore, India

Oct 2025 – Present	**Manager, AI Engineer Lead** — leads AI delivery and architecture
Jan 2024 – Sep 2025	**Senior Consultant** — team lead, multiple accounts
May 2022 – Dec 2023	**Consultant** — GenAI developer

Regulatory Change Management Assistant — Sep 2026 – Present

AI-first compliance horizon scanning for a regulated utility client

- Led requirements and solution design with the business, solution architect and build team, moving compliance from manual tracking to an evidence-based, audit-ready capability.
- Designed event-driven ingestion (Data Factory, Logic Apps, Functions, Event Grid) feeding Azure AI Search and Azure OpenAI for grounded answers.
- Evaluated Neo4j against Azure SQL graph extensions for mapping obligations to controls.

Autonomous Data Product Platform (ADPP) — Aug 2026 – Present

Multi-tenant AI platform for the 8-step data-product lifecycle

- AI agents (Claude on AWS Bedrock) generate every lifecycle artifact; humans only review and approve.
- Governed through Databricks Unity Catalog and Delta Lake; AI-generated dbt code is gated by sqlfluff and bandit before commit to GitLab.
- Planned sprints, supported the team and reviewed PRs; phased production rollout under way since Aug 2026.

API Forge — BRD to API Generator Jun 2026 – Jul 2026

- Generated production-ready APIs from Business Requirements Documents with Claude Sonnet 4.6 (1M context); FastAPI and Next.js on Azure.

Business4AI — Enterprise SOP AI Platform Dec 2025 – May 2026

- Architected 10 FastAPI microservices and 4 module-federation React frontends on Azure Container Apps, with a multi-LLM strategy (Claude and AWS Bedrock).
- CI/CD pipelines (GitHub Actions) cut deployment time by 80% and enabled AI adoption across business units.

Earlier highlights 2022 – 2024

- **Legal Tender AI Review** — RAG on Azure Cognitive Search and GPT-3.5; review time cut 90% (100+ to 10 hrs), €1.4M avoided per year.
- **Agentic AI Chatbot** — ReAct pattern built from scratch (Langraph, GPT-4o); led 5 engineers; 70% less manual query resolution.
- **Multimodal-RAG Playground** — led 8+ engineers across UI, API, data and AI; images, video, audio and PDFs; 80%+ extraction accuracy.
- **RAG Playground** — custom parsers for 15+ file formats and AI enrichment of the vector store; 35% better downstream chatbot accuracy.
- **Also:** Code Assistant (air-gapped Mistral / Llama 2) · RAISE AI governance · Synthetic data generation.

Flexera Software — Software Development Engineer, Machine Learning Jun 2019 – May 2022

- Built NLP license and copyright detection (Spacy NER, scikit-learn), lifting component mappings from 35% to 55%.
- Served 10K+ daily predictions at 99.5% uptime through REST APIs.
- Built Python automation tools for component identification and release-metadata extraction, cutting manual operational time 60%.
- Delivered an HR Q&A chatbot for 500+ employees after comparing Dialogflow, Lex, LUIS and Rasa X: 70% fewer tickets, 50% faster resolution.

CERTIFICATIONS

Jul 2026	**Capgemini** — Certified Architect, L1
Jan 2025	**Databricks** — Certified Generative AI Engineer Associate
2024	**Oracle Cloud** — OCI Generative AI Professional
2024	**igmGuru** — Generative AI Certification
Oct 2023	**AWS** — Certified Machine Learning, Specialty
Aug 2022	**Microsoft Azure** — AI Engineer Associate (AI-102)
Aug 2022	**Microsoft Azure** — AI Fundamentals (AI-900)
Jul 2022	**AWS** — Certified Cloud Practitioner
Jul 2022	**Dataiku** — ML Practitioner
Jul 2022	**Dataiku** — Core Designer

AWARDS

Regional Impact Award — Best Efficiency Delivered, Capgemini (Jun 2025)

XTRAMILE Award — Outstanding Performance & Lasting Contribution, Capgemini (Sep 2022)

Passion in AI — Recognition, Flexera Software (2021)

EDUCATION

MCA, Visvesvaraya Technological University (2019) — CGPA 7.91

BCA, Bangalore University (2015) — 67%
